JET MASTER®

Image Display Systems

ACRYLIC

JetMaster® Acrylic brings a stunning visual element to any space. Using a quick and easy method, anyone can display photographic prints with a stylish frame free finish. Simply print your image onto resin coated photo paper then mount face down on the back of the acrylic plate. Trim around the edges and your print is ready to display.

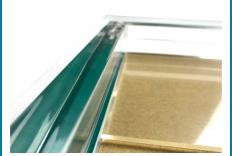

The JetMaster® Image Display Systems Range is manufactured and distributed by Innova Art. For more information about Innova and their range of digital media visit www.innovaart.com

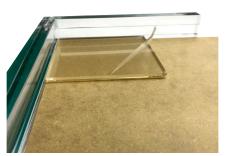

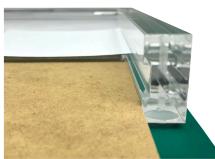

Step 1: Gather Components.

Step 2: Place acrylic plate into alignment frame.

Step 3:
Peel back a small section of the clear release liner.

Step 4:
Place print face down and apply pressure to secure to exposed adhesive.

Step 5: Remove remaining release liner.

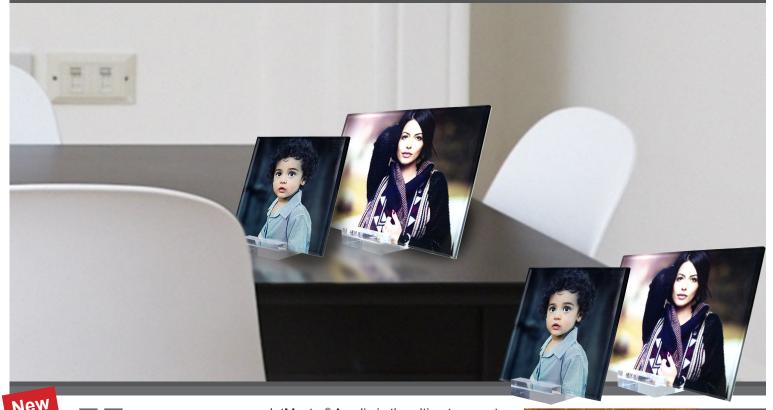

Step 6:
Use squeegee to apply pressure to entire print surface.

Step 7: Trim around edges.

Step 8: Remove protective face paper.

Print - Stick - Display

JetMaster® Acrylic is the ultimate easy to use image display media. Simply print on Resin Coated media and mount on the back of an adhesive acrylic plate.

Ideal for a while you wait option in photo retail stores. JetMaster® Acrylic also makes a great do it yourself gift option, all you need is an inkjet printer and standard resin coated inkjet photo paper.

General Specifications:

- Thickness: 5mm
- Crystal clear
- Bevelled edges
- Easy to make
